

The background features a collage of geometric shapes and extrusion profiles. In the top right, there is a photograph of various extruded profiles in different colors (red, orange, yellow, grey) and shapes. The rest of the page is decorated with large, overlapping triangles in shades of dark blue, teal, and red. The company name 'WATOM' is centered in the middle of the page.

HOLLOW - Hollow profiles & decorative tubes	35

ABS U 15572

Lighting cover in grooved panel

Material and finishes:

ABS OPAL
PVC Clear
Translucent foil
Black translucent

Accessories: ABS U 1062

LED carrier profile with 8mm wide LED strip

We also offer ABS U 1062 without a LED strip inserted

ABS U 1062 carrier profile with
8mm LED strip

EMB PLAT ABS U 15572

An end cap to give a nice finish look

Packaging:

Plastic bag
In boxes

ABS U 20107

Lighting cover in grooved panel

Material and finishes:

- ABS Opal
- PVC clear
- Translucent foil
- Black translucent

Accessories: BAN 14515 PVC/ABS

LED carrier design for insertion into ABS U 20107

BAN 14515 used as a light diffuser with LED strip placed underneath

Packaging: Available in standard and custom lengths

ABS U 1062

LED profile designed for 8 mm wide LED strips

Facilitates LED strip insertion into our GALAXY profiles

We also offer it with LED strips inserted

To be used with:

ABS U 15572

ABS TUREC 1451 ERG

BANLU 1682 TCR

ABS CLIPO 24138

ABS U 1019

Slightly smaller versions also available

ABS U 9818

Banlu 1682 TCR

Material and finishes:

- PVC Clear
- Decorative film
- Translucent foil

Accessories: ABS U 1062

LED carrier profile with 8mm wide LED strip

We also offer ABS U 1062 without a LED strip inserted

ABS U 1062 carrier profile with 8mm LED strip

Decorative film, to orientate the light and give a decorative finish

Packaging: available in standard and customized lengths

ABS Turec 1451 ERG

Material and finishes:

- ABS OPAL
- Decorative film
- Translucent foil

Packaging:

Max length 4 m

EMB ABS TUREC 1451 ERG

End cap with hole

End cap without hole

Material and finishes:

- OPAL finishes
- Plain color
- Lacquer

Packaging:

- Plastic bag
- In boxes

Accessories: ABS U 1062

LED carrier profile with 8mm wide LED strip

We also offer ABS U 1062 without a LED strip inserted

ABS U 1062 carrier profile with 8mm LED strip

ABS CLIPO 24138

Glass shelf clip-on light

Projects LED light through a glass shelf for sparkling Fits 6 and 8 mm glass

Material and finishes:

- ABS Opal finish
- Plain colors
- Decorative film

Accessories:

- ABS U 1062

Banlu 2969

BANLU 2969

Material and finishes:

- ABS OPAL
- PVC Clear
- Decorative film
- Translucent foil
- Plain Color
- Black translucent

- High impact PVC
- Plain colors

SOUP BANLU 2969 BIDUR/REC
(without soft lips)

- High impact PVC
- Soft PVC
- Plain color

SOUP BANLU 2969 BIDUR
(with soft lips)

Packaging:
Available in standard and customized lengths

Mountin:

EMB BANLU 2969 + ST
(without hole)

EMB BANLU 2969 + AT
(with hole)

Material and finishes:

- ABS in plain colors
- ABS Opal finishes
- Transfer foil
- Lacquer finish

ABS BANLU 1756

LED profile for grooves, with side-view LED strip inserted

Optional modification for covering the end of the groove

Material and finishes:

- ABS Opal
- PVC Clear
- Translucent foil
- Black translucent

With translucent foil

Packaging:

Available in standard and customized lengths

ABS U 1062 T

Without LED strip

LED profile designed for 8 mm wide LED strips

Possible with inserted LED strip

Material and finishes:

ABS
Plain colors

Packaging:

Available in standard
and custom lengths

Could be used with:

ABS U 252512

ABS L 2525

ABS U 252512 - ABS L 2525

Material and finishes:

- ABS OPAL
- Translucent foil
- Decorative film
- Black translucent

ABS U 252512

ABS L 2525

Mountin:

Packaging:

Available in standard and custom lengths

with ABS U 1062 T

Flexible T barb lighting profile

CRICOL 945/7 TDR

Material and finishes:

FLEXIBLE PVC
Transparent PVC
Translucent foil

Accessories:

5 mm LED strip
Power supply
S-touch module (switch/dimmer)

Mounting:

Insertion in groove

Packaging:

Available in standard and custom lengths

Decorative translucent foil on LED profiles

When the LED is off, you get the effect of the foil

When the LED is on, light passes through slightly colored by the metallic transfer foil

Translucent foil is available on both rigid and flexible LED profiles

S - Touch module

A tiny Touch Switch / Dimmer

Small capacitive touch module works with capacitive and conductive surfaces

Functions: ON/OFF - Dimmer - Timer

So small it fits inside LED profile

Power: Maximum load 5A
Supply 12-24 v DC

Use our profiles as a touch light switch

Available as:

Printed circuit board only
35x10x5 mm

With leads soldered and wrapped 56x11.5x5.8 mm

Wire length:

LED out, power supply 120 mm Sensor lead 200 mm

Works with both capacitance surfaces

Like our translucent film

OR

Conductive surfaces like an aluminum strip

Edging PVC or ABS

- Finishes:

Flexible profiles

PROPOR

Flexible PVC profiles, ideal for curves and rounded corners, as well as flat panels

T-shaped profiles to be inserted in a groove

Flat base profiles with double sided tape

Lacquers

Finishes:

- Combinations are possible
- Plain colors material coloring
- Granite fine surface texture
- Metallic finish
- Decorative foil
- Partial or complete decorative strip
- Lacquer

Mylar foil with a metallic look wrapped around either rigid or flexible profiles

- Waterborne lacquers
- Environmentally friendly
- Low emission
- Low energy consumption
- Good scratch resistance
- Good abrasion resistance
- Good flexibility
- No yellowing

Serigraph combination of techniques to create a wood grain pattern. We can match your wood print with ease, applied on your profiles and edge-band.
